NPIC R-5102/64

This report supplements NPIC/R-219/63 and R-127/64, 1/2, which discuss the Derazhnya MRBM Complex, previously consisting of two Type II launch areas, one Type IV launch area, and a fixed field site (Figure 1).

Derazhnya MRBM Launch Areas No 1, 2, and 3 and Fixed Field MRBM Site No 1 were all first observed in [REDACTED] Launch Area No 1 and the field site were con-

sidered to be complete at that time. The construction status of Launch Area No 2 was undetermined because of vegetation. It was considered complete in [REDACTED] Launch Area No 3 was in a mid-stage of construction in [REDACTED] and it was considered complete in [REDACTED]

FIXED FIELD SITE NO 2

Derazhnya Fixed Field MRBM Site No 2 (Figure 2) is located in a level, wooded area. It is approximately 2.7 nautical miles (nm) south-southwest of Derazhnya Fixed Field MRBM Site No 3 and 4 nm east of Letichev. The site was negated on [REDACTED] and was first observed in [REDACTED] It contains four launch positions and a clearing, interconnected by a loop road network. The azimuths of the launch

positions are approximately 235 degrees, compared with azimuths of [REDACTED] for Launch Areas No 1, 2, and 3 and Fixed Field Sites No 1 and 3, respectively. No activity is evident on the launch positions or in the clearing. The site remained unchanged on subsequent KLYHOLI missions in [REDACTED] and [REDACTED]

FIXED FIELD SITE NO 3

Derazhnya Fixed Field MRBM Site No 3 (Figure 3) is located in a level, wooded area. It is approximately 2.7 nm north-northeast of Fixed Field Site No 2 and 5.2 nm northeast of Letichev. The site was negated on [REDACTED] photography [REDACTED] and was first observed in [REDACTED] It contains four launch positions arranged on a loop road network. The azimuths of the launch positions are approximately 235 degrees. No activity is evident on the positions or in the

immediate area. The site remained unchanged on a subsequent KLYHOLI mission in [REDACTED]

A rail spur 2.3 nm south of Launch Area No 3 could be used by this site and field site No 1 as a rail-to-road transfer point. A good road connects the sites with the transfer point. Launch Areas No 1 and 2 and Fixed Field Sites No 2 and 3 could use the rail yards at Derazhnya for a rail-to-road transfer point. Good roads connect these sites with Derazhnya.
